“(iii) RESUMPTION OF ELIGIBILITY.—A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency meets the requirements of clause (i) for that subsequent fiscal year, except that such agency shall not receive a basic support payment under this paragraph until the fiscal year succeeding the fiscal year for which the eligibility determination is made.

SEC. 3601. SHORT TITLE.

This title may be cited as the “Energy Employees Occupational Illness Compensation Program Act of 2000”.

SEC. 3602. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—The Congress finds the following:

(1) Since World War II, Federal nuclear activities have been explicitly recognized under Federal law as activities that are ultra-hazardous. Nuclear weapons production and testing have involved unique dangers, including potential catastrophic nuclear accidents that private insurance carriers have not covered and recurring exposures to radioactive substances and beryllium that, even in small amounts, can cause medical harm.

(2) Since the inception of the nuclear weapons program and for several decades afterwards, a large number of nuclear weapons workers at sites of the Department of Energy and at sites of vendors who supplied the Cold War effort were put at risk without their knowledge and consent for reasons that, documents reveal, were driven by fears of adverse publicity, liability, and employee demands for hazardous duty pay.

(3) Many previously secret records have documented unmonitored exposures to radiation and beryllium and continuing problems at these sites across the Nation, at which the Department of Energy and its predecessor agencies have been, since World War II, self-regulating with respect to nuclear safety and occupational safety and health. No other hazardous Federal activity has been permitted to be carried out under such sweeping powers of self-regulation.

(4) The policy of the Department of Energy has been to litigate occupational illness claims, which has deterred workers

from filing workers' compensation claims and has imposed major financial burdens for such employees who have sought compensation. Contractors of the Department have been held harmless and the employees have been denied workers' compensation coverage for occupational disease.

(5) Over the past 20 years, more than two dozen scientific findings have emerged that indicate that certain of such employees are experiencing increased risks of dying from cancer and non-malignant diseases. Several of these studies have also established a correlation between excess diseases and exposure to radiation and beryllium.

(6) While linking exposure to occupational hazards with the development of occupational disease is sometimes difficult, scientific evidence supports the conclusion that occupational exposure to dust particles or vapor of beryllium can cause beryllium sensitivity and chronic beryllium disease. Furthermore, studies indicate that 98 percent of radiation-induced cancers within the nuclear weapons complex have occurred at dose levels below existing maximum safe thresholds.

(7) Existing information indicates that State workers' compensation programs do not provide a uniform means of ensuring adequate compensation for the types of occupational illnesses and diseases that relate to the employees at those sites.

(8) To ensure fairness and equity, the civilian men and women who, over the past 50 years, have performed duties uniquely related to the nuclear weapons production and testing programs of the Department of Energy and its predecessor agencies should have efficient, uniform, and adequate compensation for beryllium-related health conditions and radiation-related health conditions.

(9) On April 12, 2000, the Secretary of Energy announced that the Administration intended to seek compensation for individuals with a broad range of work-related illnesses throughout the Department of Energy's nuclear weapons complex.

(10) However, as of October 2, 2000, the Administration has failed to provide Congress with the necessary legislative and budget proposals to enact the promised compensation program.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) a program should be established to provide compensation to covered employees;

(2) a fund for payment of such compensation should be established on the books of the Treasury;

(3) payments from that fund should be made only after—

(A) the identification of employees of the Department of Energy (including its predecessor agencies), and of contractors of the Department, who may be members of the group of covered employees;

(B) the establishment of a process to receive and administer claims for compensation for disability or death of covered employees;

(C) the submittal by the President of a legislative proposal for compensation of such employees that includes the estimated annual budget resources for that compensation; and

(D) consideration by the Congress of the legislative proposal submitted by the President; and
 (4) payments from that fund should commence not later than fiscal year 2002.

(4) Whether to expand the class of individuals who are members of the Special Exposure Cohort (as defined in section 3621(14)).

(b) ASSESSMENT OF POTENTIAL COVERED EMPLOYEES AND REQUIRED AMOUNTS.—The President shall include with the proposal for legislation under subsection (a) the following:

(1) An estimate of the number of covered employees that the President determines were exposed in the performance of duty.

(2) An estimate, for each fiscal year of the compensation program, of the amounts to be required for compensation and benefits anticipated to be provided in such fiscal year under the compensation program.

SEC. 3623. EXPOSURE IN THE PERFORMANCE OF DUTY.

(a) BERYLLIUM.—A covered beryllium employee shall, in the absence of substantial evidence to the contrary, be determined to have been exposed to beryllium in the performance of duty for the purposes of the compensation program if, and only if, the covered beryllium employee was—

- (1) employed at a Department of Energy facility; or
- (2) present at a Department of Energy facility, or a facility owned and operated by a beryllium vendor, because of employment by the United States, a beryllium vendor, or a contractor or subcontractor of the Department of Energy,

during a period when beryllium dust, particles, or vapor may have been present at such facility.

(b) **CANCER.**—An individual with cancer specified in subclause (I), (II), or (III) of section 3621(9)(B)(ii) shall be determined to have sustained that cancer in the performance of duty for purposes of the compensation program if, and only if, the cancer specified in that subclause was at least as likely as not related to employment at the facility specified in that subclause, as determined in accordance with the guidelines established under subsection (c).

(c) **GUIDELINES.**—(1) For purposes of the compensation program, the President shall by regulation establish guidelines for making the determinations required by subsection (b).

(2) The President shall establish such guidelines after technical review by the Advisory Board on Radiation and Worker Health under section 3624.

(3) Such guidelines shall—

(A) be based on the radiation dose received by the employee (or a group of employees performing similar work) at such facility and the upper 99 percent confidence interval of the probability of causation in the radioepidemiological tables published under section 7(b) of the Orphan Drug Act (42 U.S.C. 241 note), as such tables may be updated under section 7(b)(3) of such Act from time to time;

(B) incorporate the methods established under subsection (d); and

(C) take into consideration the type of cancer, past health-related activities (such as smoking), information on the risk of developing a radiation-related cancer from workplace exposure, and other relevant factors.

(d) **METHODS FOR RADIATION DOSE RECONSTRUCTIONS.**—(1) The President shall, through any Federal agency (other than the Department of Energy) or official (other than the Secretary of Energy or any other official within the Department of Energy) that the President may designate, establish by regulation methods for arriving at reasonable estimates of the radiation doses received by an individual specified in subparagraph (B) of section 3621(9) at a facility specified in that subparagraph by each of the following employees:

SEC. 3626. DESIGNATION OF ADDITIONAL MEMBERS OF SPECIAL EXPOSURE COHORT.

(a) ADVICE ON ADDITIONAL MEMBERS.—(1) The Advisory Board on Radiation and Worker Health under section 3624 shall advise the President whether there is a class of employees at any Department of Energy facility who likely were exposed to radiation at that facility but for whom it is not feasible to estimate with sufficient accuracy the radiation dose they received.

(2) The advice of the Advisory Board on Radiation and Worker Health under paragraph (1) shall be based on exposure assessments by radiation health professionals, information provided by the Department of Energy, and such other information as the Advisory Board considers appropriate.

(3) The President shall request advice under paragraph (1) after consideration of petitions by classes of employees described in that paragraph for such advice. The President shall consider such petitions pursuant to procedures established by the President.

(b) DESIGNATION OF ADDITIONAL MEMBERS.—Subject to the provisions of section 3621(14)(C), the members of a class of employees at a Department of Energy facility may be treated as members of the Special Exposure Cohort for purposes of the compensation program if the President, upon recommendation of the Advisory Board on Radiation and Worker Health, determines that—

(1) it is not feasible to estimate with sufficient accuracy the radiation dose that the class received; and

(2) there is a reasonable likelihood that such radiation dose may have endangered the health of members of the class.

(c) ACCESS TO INFORMATION.—The Secretary of Energy shall provide, in accordance with law, the Secretary of Health and Human Services and the members and staff of the Advisory Board on Radiation and Worker Health access to relevant information on worker exposures, including access to Restricted Data (as defined in section 11 y. of the Atomic Energy Act of 1954 (42 U.S.C. 2014(y))).

SEC. 3627. SEPARATE TREATMENT OF CHRONIC SILICOSIS.

(a) SENSE OF CONGRESS.—Congress finds that employees who worked in Department of Energy test sites and later contracted chronic silicosis should also be considered for inclusion in the compensation program. Recognizing that chronic silicosis resulting from exposure to silica is not a condition unique to the nuclear weapons industry, it is not the intent of Congress with this title to establish a precedent on the question of chronic silicosis as a compensable occupational disease. Consequently, it is the sense of Congress that a further determination by the President is appropriate before these workers are included in the compensation program.

(b) CERTIFICATION BY PRESIDENT.—A covered employee with chronic silicosis shall be treated as a covered employee (as defined in section 3621(1)) for the purposes of the compensation program required by section 3611 unless the President submits to Congress not later than 180 days after the date of the enactment of this Act the certification of the President that there is insufficient basis to include such employees. The President shall submit with the certification any recommendations about the compensation program with respect to covered employees with chronic silicosis as the President considers appropriate.

(c) EXPOSURE TO SILICA IN THE PERFORMANCE OF DUTY.—A covered employee shall, in the absence of substantial evidence to the contrary, be determined to have been exposed to silica in the performance of duty for the purposes of the compensation program if, and only if, the employee was present for a number of work days aggregating at least 250 work days during the mining of tunnels at a Department of Energy facility located in Nevada or Alaska for tests or experiments related to an atomic weapon.

(d) COVERED EMPLOYEE WITH CHRONIC SILICOSIS.—For purposes of this title, the term “covered employee with chronic silicosis” means a Department of Energy employee, or a Department of Energy contractor employee, with chronic silicosis who was exposed to silica in the performance of duty as determined under subsection (c).

(e) CHRONIC SILICOSIS.—For purposes of this title, the term “chronic silicosis” means a nonmalignant lung disease if—

(1) the initial occupational exposure to silica dust preceded the onset of silicosis by at least 10 years; and

(2) a written diagnosis of silicosis is made by a medical doctor and is accompanied by—

(A) a chest radiograph, interpreted by an individual certified by the National Institute for Occupational Safety and Health as a B reader, classifying the existence of pneumoconioses of category 1/1 or higher;

(B) results from a computer assisted tomograph or other imaging technique that are consistent with silicosis; or

(C) lung biopsy findings consistent with silicosis.

(b) **MEDICAL BENEFITS.**—A covered uranium employee shall receive medical benefits under section 3629 for the illness for which that employee received \$100,000 under section 5 of that Act.

(c) **COORDINATION WITH RECA.**—The compensation and benefits provided in subsections (a) and (b) are separate from any compensation or benefits provided under that Act.

may, on behalf of that survivor and any other survivors of that employee, receive the compensation provided for under this section.

(2) The right to receive compensation under this section shall be afforded to survivors in the same order of precedence as that set forth in section 8109 of title 5, United States Code.

(2) such other assistance as may be required to develop facts pertinent to the claim.

(b) **ASSISTANCE FOR POTENTIAL CLAIMANTS.**—The President shall take appropriate actions to inform and assist covered employees who are potential claimants under the compensation program, and other potential claimants under the compensation program, of the availability of compensation under the compensation program, including actions to—

(1) ensure the ready availability, in paper and electronic format, of forms necessary for making claims;

(2) provide such covered employees and other potential claimants with information and other support necessary for making claims, including—

TITLE I—PROGRAMS FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

Subtitle A—General Provisions

42 USC 15001.

SEC. 101. FINDINGS, PURPOSES, AND POLICY.

(a) FINDINGS.—Congress finds that—

(1) disability is a natural part of the human experience that does not diminish the right of individuals with developmental disabilities to live independently, to exert control and choice over their own lives, and to fully participate in and contribute to their communities through full integration and inclusion in the economic, political, social, cultural, and educational mainstream of United States society;

(2) in 1999, there were between 3,200,000 and 4,500,000 individuals with developmental disabilities in the United States, and recent studies indicate that individuals with developmental disabilities comprise between 1.2 and 1.65 percent of the United States population;

(3) individuals whose disabilities occur during their developmental period frequently have severe disabilities that are likely to continue indefinitely;

(4) individuals with developmental disabilities often encounter discrimination in the provision of critical services, such as services in the areas of emphasis (as defined in section 102);

(5) individuals with developmental disabilities are at greater risk than the general population of abuse, neglect,

financial and sexual exploitation, and the violation of their legal and human rights;

(6) a substantial portion of individuals with developmental disabilities and their families do not have access to appropriate support and services, including access to assistive technology, from generic and specialized service systems, and remain unserved or underserved;

(7) individuals with developmental disabilities often require lifelong community services, individualized supports, and other forms of assistance, that are most effective when provided in a coordinated manner;

(8) there is a need to ensure that services, supports, and other assistance are provided in a culturally competent manner, that ensures that individuals from racial and ethnic minority backgrounds are fully included in all activities provided under this title;

(9) family members, friends, and members of the community can play an important role in enhancing the lives of individuals with developmental disabilities, especially when the family members, friends, and community members are provided with the necessary community services, individualized supports, and other forms of assistance;

(10) current research indicates that 88 percent of individuals with developmental disabilities live with their families or in their own households;

(11) many service delivery systems and communities are not prepared to meet the impending needs of the 479,862 adults with developmental disabilities who are living at home with parents who are 60 years old or older and who serve as the primary caregivers of the adults;

(12) in almost every State, individuals with developmental disabilities are waiting for appropriate services in their communities, in the areas of emphasis;

(13) the public needs to be made more aware of the capabilities and competencies of individuals with developmental disabilities, particularly in cases in which the individuals are provided with necessary services, supports, and other assistance;

(14) as increasing numbers of individuals with developmental disabilities are living, learning, working, and participating in all aspects of community life, there is an increasing need for a well trained workforce that is able to provide the services, supports, and other forms of direct assistance required to enable the individuals to carry out those activities;

(15) there needs to be greater effort to recruit individuals from minority backgrounds into professions serving individuals with developmental disabilities and their families;

(16) the goals of the Nation properly include a goal of providing individuals with developmental disabilities with the information, skills, opportunities, and support to—

(A) make informed choices and decisions about their lives;

(B) live in homes and communities in which such individuals can exercise their full rights and responsibilities as citizens;

(C) pursue meaningful and productive lives;

(D) contribute to their families, communities, and States, and the Nation;

(E) have interdependent friendships and relationships with other persons;

(F) live free of abuse, neglect, financial and sexual exploitation, and violations of their legal and human rights; and

(G) achieve full integration and inclusion in society, in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each individual; and

(17) as the Nation, States, and communities maintain and expand community living options for individuals with developmental disabilities, there is a need to evaluate the access to those options by individuals with developmental disabilities and the effects of those options on individuals with developmental disabilities.

(b) PURPOSE.—The purpose of this title is to assure that individuals with developmental disabilities and their families participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life, through culturally competent programs authorized under this title, including specifically—

(1) State Councils on Developmental Disabilities in each State to engage in advocacy, capacity building, and systemic change activities that—

(A) are consistent with the purpose described in this subsection and the policy described in subsection (c); and

(B) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system that includes needed community services, individualized supports, and other forms of assistance that promote self-determination for individuals with developmental disabilities and their families;

(2) protection and advocacy systems in each State to protect the legal and human rights of individuals with developmental disabilities;

(3) University Centers for Excellence in Developmental Disabilities Education, Research, and Service—

(A) to provide interdisciplinary pre-service preparation and continuing education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this title;

(B) to provide community services—

(i) that provide training and technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policy-makers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities;

(C) to conduct research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively

or negatively, individuals with developmental disabilities and their families; and

(D) to disseminate information related to activities undertaken to address the purpose of this title, especially dissemination of information that demonstrates that the network authorized under this subtitle is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances; and

(4) funding for—

(A) national initiatives to collect necessary data on issues that are directly or indirectly relevant to the lives of individuals with developmental disabilities;

(B) technical assistance to entities who engage in or intend to engage in activities consistent with the purpose described in this subsection or the policy described in subsection (c); and

(C) other nationally significant activities.

(c) **POLICY.**—It is the policy of the United States that all programs, projects, and activities receiving assistance under this title shall be carried out in a manner consistent with the principles that—

(1) individuals with developmental disabilities, including those with the most severe developmental disabilities, are capable of self-determination, independence, productivity, and integration and inclusion in all facets of community life, but often require the provision of community services, individualized supports, and other forms of assistance;

(2) individuals with developmental disabilities and their families have competencies, capabilities, and personal goals that should be recognized, supported, and encouraged, and any assistance to such individuals should be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of such individuals;

(3) individuals with developmental disabilities and their families are the primary decisionmakers regarding the services and supports such individuals and their families receive, including regarding choosing where the individuals live from available options, and play decisionmaking roles in policies and programs that affect the lives of such individuals and their families;

(4) services, supports, and other assistance should be provided in a manner that demonstrates respect for individual dignity, personal preferences, and cultural differences;

(5) specific efforts must be made to ensure that individuals with developmental disabilities from racial and ethnic minority backgrounds and their families enjoy increased and meaningful opportunities to access and use community services, individualized supports, and other forms of assistance available to other individuals with developmental disabilities and their families;

(6) recruitment efforts in disciplines related to developmental disabilities relating to pre-service training, community training, practice, administration, and policymaking must focus on bringing larger numbers of racial and ethnic minorities

into the disciplines in order to provide appropriate skills, knowledge, role models, and sufficient personnel to address the growing needs of an increasingly diverse population;

(7) with education and support, communities can be accessible to and responsive to the needs of individuals with developmental disabilities and their families and are enriched by full and active participation in community activities, and contributions, by individuals with developmental disabilities and their families;

(8) individuals with developmental disabilities have access to opportunities and the necessary support to be included in community life, have interdependent relationships, live in homes and communities, and make contributions to their families, communities, and States, and the Nation;

(9) efforts undertaken to maintain or expand community-based living options for individuals with disabilities should be monitored in order to determine and report to appropriate individuals and entities the extent of access by individuals with developmental disabilities to those options and the extent of compliance by entities providing those options with quality assurance standards;

(10) families of children with developmental disabilities need to have access to and use of safe and appropriate child care and before-school and after-school programs, in the most integrated settings, in order to enrich the participation of the children in community life;

(11) individuals with developmental disabilities need to have access to and use of public transportation, in order to be independent and directly contribute to and participate in all facets of community life; and

(12) individuals with developmental disabilities need to have access to and use of recreational, leisure, and social opportunities in the most integrated settings, in order to enrich their participation in community life.

SEC. 109. RIGHTS OF INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES.

(a) IN GENERAL.—Congress makes the following findings respecting the rights of individuals with developmental disabilities:

(1) Individuals with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities, consistent with section 101(c).

(2) The treatment, services, and habilitation for an individual with developmental disabilities should be designed to maximize the potential of the individual and should be provided in the setting that is least restrictive of the individual's personal liberty.

(3) The Federal Government and the States both have an obligation to ensure that public funds are provided only to institutional programs, residential programs, and other community programs, including educational programs in which individuals with developmental disabilities participate, that—

(A) provide treatment, services, and habilitation that are appropriate to the needs of such individuals; and

(B) meet minimum standards relating to—

(i) provision of care that is free of abuse, neglect, sexual and financial exploitation, and violations of legal and human rights and that subjects individuals with developmental disabilities to no greater risk of harm than others in the general population;

(ii) provision to such individuals of appropriate and sufficient medical and dental services;

(iii) prohibition of the use of physical restraint and seclusion for such an individual unless absolutely necessary to ensure the immediate physical safety of the individual or others, and prohibition of the use of such restraint and seclusion as a punishment or as a substitute for a habilitation program;

(iv) prohibition of the excessive use of chemical restraints on such individuals and the use of such restraints as punishment or as a substitute for a habilitation program or in quantities that interfere with services, treatment, or habilitation for such individuals; and

(v) provision for close relatives or guardians of such individuals to visit the individuals without prior notice.

(4) All programs for individuals with developmental disabilities should meet standards—

(A) that are designed to assure the most favorable possible outcome for those served; and

(B)(i) in the case of residential programs serving individuals in need of comprehensive health-related,

habilitative, assistive technology or rehabilitative services, that are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded, promulgated in regulations of the Secretary on June 3, 1988, as appropriate, taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(ii) in the case of other residential programs for individuals with developmental disabilities, that assure that—

(I) care is appropriate to the needs of the individuals being served by such programs;

(II) the individuals admitted to facilities of such programs are individuals whose needs can be met through services provided by such facilities; and

(III) the facilities of such programs provide for the humane care of the residents of the facilities, are sanitary, and protect their rights; and

(iii) in the case of nonresidential programs, that assure that the care provided by such programs is appropriate to the individuals served by the programs.

(b) CLARIFICATION.—The rights of individuals with developmental disabilities described in findings made in this section shall be considered to be in addition to any constitutional or other rights otherwise afforded to all individuals.

SEC. 122. STATE ALLOTMENTS.

42 USC 15022.

(a) ALLOTMENTS.—

Deadline.

(2) ADJUSTMENTS.—The Secretary may make adjustments in the amounts of State allotments based on clauses (i), (ii), and (iii) of paragraph (1)(A) not more often than annually. The Secretary shall notify each State of any adjustment made under this paragraph and the percentage of the total sums appropriated under section 129 that the adjusted allotment represents not later than 6 months before the beginning of the fiscal year in which such adjustment is to take effect.

(3) MINIMUM ALLOTMENT FOR APPROPRIATIONS LESS THAN OR EQUAL TO \$70,000,000.—

(A) IN GENERAL.—Except as provided in paragraph (4), for any fiscal year the allotment under this section—

(ii) to any State not described in clause (i) may not be less than \$400,000.

(B) REDUCTION OF ALLOTMENT.—Notwithstanding subparagraph (A), if the aggregate of the amounts to be allotted to the States pursuant to subparagraph (A) for any fiscal year exceeds the total amount appropriated under section 129 for such fiscal year, the amount to be allotted to each State for such fiscal year shall be proportionately reduced.

(4) MINIMUM ALLOTMENT FOR APPROPRIATIONS IN EXCESS OF \$70,000,000.—

(A) IN GENERAL.—In any case in which the total amount appropriated under section 129 for a fiscal year is more than \$70,000,000, the allotment under this section for such fiscal year—

(6) INCREASE IN ALLOTMENTS.—In any year in which the total amount appropriated under section 129 for a fiscal year exceeds the total amount appropriated under such section (or a corresponding provision) for the preceding fiscal year by a percentage greater than the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 100(c)(1) of the Rehabilitation Act of 1973 (29 U.S.C. 720(c)(1)) (if the percentage change indicates an increase), the Secretary shall increase each of the minimum allotments described in paragraphs (3) and (4). The Secretary shall increase each minimum allotment by an amount that bears the same ratio to the amount of such minimum allotment (including any increases in such minimum allotment under this paragraph (or a corresponding provision) for prior fiscal years) as the amount that is equal to the difference between—

(A) the total amount appropriated under section 129 for the fiscal year for which the increase in the minimum allotment is being made; minus

(c) OBLIGATION OF FUNDS.—For the purposes of this subtitle, State Interagency Agreements are considered valid obligations for the purpose of obligating Federal funds allotted to the State under this subtitle.

(d) COOPERATIVE EFFORTS BETWEEN STATES.—If a State plan approved in accordance with section 124 provides for cooperative or joint effort between or among States or agencies, public or private, in more than 1 State, portions of funds allotted to 1 or more States described in this subsection may be combined in accordance with the agreements between the States or agencies involved.

(e) REALLOTMENTS.—

(1) IN GENERAL.—If the Secretary determines that an amount of an allotment to a State for a period (of a fiscal year or longer) will not be required by the State during the period for the purpose for which the allotment was made, the Secretary may reallocate the amount.

(2) TIMING.—The Secretary may make such a reallocation from time to time, on such date as the Secretary may fix, but not earlier than 30 days after the Secretary has published notice of the intention of the Secretary to make the reallocation in the Federal Register.

(3) AMOUNTS.—The Secretary shall reallocate the amount to other States with respect to which the Secretary has not made that determination. The Secretary shall reallocate the amount in proportion to the original allotments of the other States for such fiscal year, but shall reduce such proportionate amount for any of the other States to the extent the proportionate amount exceeds the sum that the Secretary estimates the State needs and will be able to use during such period.

(4) **REALLOTMENT OF REDUCTIONS.**—The Secretary shall similarly reallocate the total of the reductions among the States whose proportionate amounts were not so reduced.

(5) **TREATMENT.**—Any amount reallocated to a State under this subsection for a fiscal year shall be deemed to be a part of the allotment of the State under subsection (a) for such fiscal year.

The Secretary shall make such payments from time to time in advance on the basis of estimates by the Secretary of the sums the State will expend for the cost under the State plan. Families of
Children With
Disabilities
Support Act of
2000.
42 USC 15001
note.

TITLE II—FAMILY SUPPORT

SEC. 201. SHORT TITLE.

This title may be cited as the “Families of Children With Disabilities Support Act of 2000”.

42 USC 15091.

SEC. 202. FINDINGS, PURPOSES, AND POLICY.

(a) **FINDINGS.**—Congress makes the following findings:

(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

(2) Families of children with disabilities provide support, care, and training to their children that can save States millions of dollars. Without the efforts of family caregivers, many persons with disabilities would receive care through State-supported out-of-home placements.

(3) Most families of children with disabilities, especially families in unserved and underserved populations, do not have access to family-centered and family-directed services to support such families in their efforts to care for such children at home.

(4) Medical advances and improved health care have increased the life span of many people with disabilities, and the combination of the longer life spans and the aging of family

caregivers places a continually increasing demand on the finite service delivery systems of the States.

(5) In 1996, 49 States provided family support initiatives in response to the needs of families of children with disabilities. Such initiatives included the provision of cash subsidies, respite care, and other forms of support. There is a need in each State, however, to strengthen, expand, and coordinate the activities of a system of family support services for families of children with disabilities that is easily accessible, avoids duplication, uses resources efficiently, and prevents gaps in services to families in all areas of the State.

(6) The goals of the Nation properly include the goal of providing to families of children with disabilities the family support services necessary—

(A) to support the family;

(B) to enable families of children with disabilities to nurture and enjoy their children at home;

(C) to enable families of children with disabilities to make informed choices and decisions regarding the nature of supports, resources, services, and other assistance made available to such families; and

(D) to support family caregivers of adults with disabilities.

(b) PURPOSES.—The purposes of this title are—

(1) to promote and strengthen the implementation of comprehensive State systems of family support services, for families with children with disabilities, that are family-centered and family-directed, and that provide families with the greatest possible decisionmaking authority and control regarding the nature and use of services and support;

(2) to promote leadership by families in planning, policy development, implementation, and evaluation of family support services for families of children with disabilities;

(3) to promote and develop interagency coordination and collaboration between agencies responsible for providing the services; and

(4) to increase the availability of, funding for, access to, and provision of family support services for families of children with disabilities.

(c) POLICY.—It is the policy of the United States that all programs, projects, and activities funded under this title shall be family-centered and family-directed, and shall be provided in a manner consistent with the goal of providing families of children with disabilities with the support the families need to raise their children at home.

[H.R. 209]

Technology
Transfer
Commercializa-
tion Act of 2000.
15 USC 3701
note.
15 USC 3701
note.

To improve the ability of Federal agencies to license federally owned inventions.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Technology Transfer Commercialization Act of 2000”.

SEC. 2. FINDINGS.

The Congress finds that—

(1) the importance of linking our unparalleled network of over 700 Federal laboratories and our Nation’s universities with United States industry continues to hold great promise for our future economic prosperity;

(2) the enactment of the Bayh-Dole Act in 1980 was a landmark change in United States technology policy, and its success provides a framework for removing bureaucratic barriers and for simplifying the granting of licenses for inventions that are now in the Federal Government’s patent portfolio;

(3) Congress has demonstrated a commitment over the past 2 decades to fostering technology transfer from our Federal laboratories and to promoting public/private sector partnerships to enhance our international competitiveness;

(4) Federal technology transfer activities have strengthened the ability of United States industry to compete in the global marketplace; developed a new paradigm for greater collaboration among the scientific enterprises that conduct our Nation’s research and development—government, industry, and universities; and improved the quality of life for the American people, from medicine to materials;

(5) the technology transfer process must be made “industry friendly” for companies to be willing to invest the significant time and resources needed to develop new products, processes, and jobs using federally funded inventions; and

(6) Federal technology licensing procedures should balance the public policy needs of adequately protecting the rights of the public, encouraging companies to develop existing government inventions, and making the entire system of licensing government technologies more consistent and simple.

SEC. 3. COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.

Section 12(b)(1) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a(b)(1)) is amended by inserting “or, subject to section 209 of title 35, United States Code, may grant

a license to an invention which is federally owned, for which a patent application was filed before the signing of the agreement, and directly within the scope of the work under the agreement,” after “under the agreement.”

SEC. 4. LICENSING FEDERALLY OWNED INVENTIONS.

(a) **AMENDMENT.**—Section 209 of title 35, United States Code, is amended to read as follows:

“§ 209. Licensing federally owned inventions

“(a) **AUTHORITY.**—A Federal agency may grant an exclusive or partially exclusive license on a federally owned invention under section 207(a)(2) only if—

“(1) granting the license is a reasonable and necessary incentive to—

“(A) call forth the investment capital and expenditures needed to bring the invention to practical application; or

“(B) otherwise promote the invention’s utilization by the public;

“(3) empowering the Federal agency to terminate the license in whole or in part if the agency determines that—

“(A) the licensee is not executing its commitment to achieve practical application of the invention, including commitments contained in any plan submitted in support of its request for a license, and the licensee cannot otherwise demonstrate to the satisfaction of the Federal agency that it has taken, or can be expected to take within a reasonable time, effective steps to achieve practical application of the invention;

“(B) the licensee is in breach of an agreement described in subsection (b);

“(C) termination is necessary to meet requirements for public use specified by Federal regulations issued after the date of the license, and such requirements are not reasonably satisfied by the licensee; or

“(D) the licensee has been found by a court of competent jurisdiction to have violated the Federal antitrust laws in connection with its performance under the license agreement.

“(e) PUBLIC NOTICE.—No exclusive or partially exclusive license may be granted under section 207(a)(2) unless public notice of the intention to grant an exclusive or partially exclusive license on a federally owned invention has been provided in an appropriate manner at least 15 days before the license is granted, and the Federal agency has considered all comments received before the end of the comment period in response to that public notice. This subsection shall not apply to the licensing of inventions made under a cooperative research and development agreement entered into under section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a).

note.

SEC. 301. SHORT TITLE.

This title may be cited as the “National Wildlife Refuge System Centennial Act”.

16 USC 668dd
note.

SEC. 302. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) President Theodore Roosevelt began the National Wildlife Refuge System by establishing the first refuge at Pelican Island, Florida, on March 14, 1903;

(2) the National Wildlife Refuge System is comprised of more than 93,000,000 acres of Federal land managed by the United States Fish and Wildlife Service in more than 532 individual refuges and thousands of waterfowl production areas located in all 50 States and the territories of the United States;

(3) the System is the only network of Federal land dedicated singularly to wildlife conservation and where wildlife-dependent recreation and environmental education are priority public uses;

(4) the System serves a vital role in the conservation of millions of migratory birds, dozens of endangered species and threatened species, some of the premier fisheries of the United States, marine mammals, and the habitats on which such species of fish and wildlife depend;

(5) each year the System provides millions of Americans with opportunities to participate in wildlife-dependent recreation, including hunting, fishing, and wildlife observation;

(6)(A) public visitation to national wildlife refuges is growing, with more than 35,000,000 visitors annually; and

(B) it is essential that visitor centers and public use facilities be properly constructed, operated, and maintained;

(7) the National Wildlife Refuge System Volunteer and Community Partnership Enhancement Act of 1998 (16 U.S.C. 742f note; Public Law 105–242), and the amendments made by that Act, significantly enhance the ability of the United States Fish and Wildlife Service to incorporate volunteers and partnerships in refuge management;

(8) as of the date of the enactment of this Act, the System has an unacceptable backlog of critical operation and maintenance needs; and

(9) the occasion of the centennial of the System, in 2003, presents a historic opportunity to enhance natural resource stewardship and expand public enjoyment of the national wildlife refuges of the United States.

(b) PURPOSES.—The purposes of this title are—

(1) to establish a commission to promote awareness by the public of the National Wildlife Refuge System as the System celebrates its centennial in 2003;

(2) to develop a long-term plan to meet the priority operation, maintenance, and construction needs of the System;

(3) to require an annual report on the needs of the System prepared in the context of—

(A) the budget submission of the Department of the Interior to the President; and

(B) the President's budget request to Congress; and

(4) to improve public use programs and facilities of the System to meet the increasing needs of the public for wildlife-dependent recreation in the 21st century.

An Act

To assist in the conservation of great apes by supporting and providing financial resources for the conservation programs of countries within the range of great apes and projects of persons with demonstrated expertise in the conservation of great apes.

Nov. 1, 2000
[H.R. 4320]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Great Ape
Conservation Act
of 2000.
16 USC 6301
note.

SECTION 1. SHORT TITLE.

This Act may be cited as the “Great Ape Conservation Act of 2000”.

SEC. 2. FINDINGS AND PURPOSES.

16 USC 6301.

(a) FINDINGS.—Congress finds that—

(1) great ape populations have declined to the point that the long-term survival of the species in the wild is in serious jeopardy;

(2) the chimpanzee, gorilla, bonobo, orangutan, and gibbon are listed as endangered species under section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533) and under Appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (27 UST 1087; TIAS 8249);

(3) because the challenges facing the conservation of great apes are so immense, the resources available to date have not been sufficient to cope with the continued loss of habitat due to human encroachment and logging and the consequent diminution of great ape populations;

(4) because great apes are flagship species for the conservation of the tropical forest habitats in which they are found, conservation of great apes provides benefits to numerous other species of wildlife, including many other endangered species;

(5) among the threats to great apes, in addition to habitat loss, are population fragmentation, hunting for the bushmeat trade, live capture, and exposure to emerging or introduced diseases;

(6) great apes are important components of the ecosystems they inhabit, and studies of their wild populations have provided important biological insights;

(7) although subsistence hunting of tropical forest animals has occurred for hundreds of years at a sustainable level, the tremendous increase in the commercial trade of tropical forest species is detrimental to the future of these species; and

(8) the reduction, removal, or other effective addressing of the threats to the long-term viability of populations of great

apes in the wild will require the joint commitment and effort of countries that have within their boundaries any part of the range of great apes, the United States and other countries, and the private sector.

(b) PURPOSES.—The purposes of this Act are—

(1) to sustain viable populations of great apes in the wild; and

(2) to assist in the conservation and protection of great apes by supporting conservation programs of countries in which populations of great apes are located and by supporting the CITES Secretariat.

16 USC 6302.

An Act

Nov. 1, 2000
[S. 406]

To amend the Indian Health Care Improvement Act to make permanent the demonstration program that allows for direct billing of medicare, medicaid, and other third party payors, and to expand the eligibility under such program to other tribes and tribal organizations.

Alaska Native
and American
Indian Direct
Reimbursement
Act of 2000.
25 USC 1601
note.

25 USC 1645
note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Alaska Native and American Indian Direct Reimbursement Act of 2000”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) In 1988, Congress enacted section 405 of the Indian Health Care Improvement Act (25 U.S.C. 1645) that established a demonstration program to authorize 4 tribally-operated Indian Health Service hospitals or clinics to test methods for direct billing and receipt of payment for health services provided to patients eligible for reimbursement under the medicare or medicaid programs under titles XVIII and XIX of the Social Security Act (42 U.S.C. 1395 et seq.; 1396 et seq.), and other third party payors.

(2) The 4 participants selected by the Indian Health Service for the demonstration program began the direct billing and collection program in fiscal year 1989 and unanimously expressed success and satisfaction with the program. Benefits of the program include dramatically increased collections for services provided under the medicare and medicaid programs, a significant reduction in the turn-around time between billing and receipt of payments for services provided to eligible patients, and increased efficiency of participants being able to track their own billings and collections.

(3) The success of the demonstration program confirms that the direct involvement of tribes and tribal organizations in the direct billing of, and collection of payments from, the medicare and medicaid programs, and other third party payor reimbursements, is more beneficial to Indian tribes than the current system of Indian Health Service-managed collections.

(4) Allowing tribes and tribal organizations to directly manage their medicare and medicaid billings and collections, rather than channeling all activities through the Indian Health Service, will enable the Indian Health Service to reduce its administrative costs, is consistent with the provisions of the Indian Self-Determination Act, and furthers the commitment

of the Secretary to enable tribes and tribal organizations to manage and operate their health care programs.

(5) The demonstration program was originally to expire on September 30, 1996, but was extended by Congress, so that the current participants would not experience an interruption in the program while Congress awaited a recommendation from the Secretary of Health and Human Services on whether to make the program permanent.

(6) It would be beneficial to the Indian Health Service and to Indian tribes, tribal organizations, and Alaska Native organizations to provide permanent status to the demonstration program and to extend participation in the program to other Indian tribes, tribal organizations, and Alaska Native health organizations who operate a facility of the Indian Health Service.

SEC. 3. DIRECT BILLING OF MEDICARE, MEDICAID, AND OTHER THIRD PARTY PAYORS.

(a) **PERMANENT AUTHORIZATION.**—Section 405 of the Indian Health Care Improvement Act (25 U.S.C. 1645) is amended to read as follows:

“(a) **ESTABLISHMENT OF DIRECT BILLING PROGRAM.**—

“(1) **IN GENERAL.**—The Secretary shall establish a program under which Indian tribes, tribal organizations, and Alaska Native health organizations that contract or compact for the operation of a hospital or clinic of the Service under the Indian Self-Determination and Education Assistance Act may elect to directly bill for, and receive payment for, health care services provided by such hospital or clinic for which payment is made under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.) (in this section referred to as the ‘medicare program’), under a State plan for medical assistance approved under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) (in this section referred to as the ‘medicaid program’), or from any other third party payor.

“(2) **APPLICATION OF 100 PERCENT FMAP.**—The third sentence of section 1905(b) of the Social Security Act (42 U.S.C. 1396d(b)) shall apply for purposes of reimbursement under the medicaid program for health care services directly billed under the program established under this section.

“(b) **DIRECT REIMBURSEMENT.**—

An Act

To provide to the Timbisha Shoshone Tribe a permanent land base within its
aboriginal homeland, and for other purposes.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Since time immemorial, the Timbisha Shoshone Tribe
has lived in portions of California and Nevada. The Tribe’s
ancestral homeland includes the area that now comprises Death
Valley National Park and other areas of California and Nevada
now administered by the Bureau of Land Management.

(2) Since 1936, the Tribe has lived and governed the affairs
of the Tribe on approximately 40 acres of land near Furnace
Creek in the Park.

(3) The Tribe achieved Federal recognition in 1983 but
does not have a land base within the Tribe’s ancestral home-
land.

(4) Since the Tribe commenced use and occupancy of the
Furnace Creek area, the Tribe’s membership has grown. Tribal
members have a desire and need for housing, government and
administrative facilities, cultural facilities, and sustainable eco-
nomic development to provide decent, safe, and healthy condi-
tions for themselves and their families.

(5) The interests of both the Tribe and the National Park
Service would be enhanced by recognizing their coexistence
on the same land and by establishing partnerships for compat-
ible land uses and for the interpretation of the Tribe’s history
and culture for visitors to the Park.

(6) The interests of both the Tribe and the United States
would be enhanced by the establishment of a land base for
the Tribe and by further delineation of the rights and obliga-
tions of each with respect to the Furnace Creek area and
to the Park as a whole.

SEC. 3. PURPOSES.

Consistent with the recommendations of the report required
by section 705(b) of the California Desert Protection Act of 1994
(Public Law 103–433; 108 Stat. 4498), the purposes of this Act
are—

16 USC 410aaa
note.

(1) to provide in trust to the Tribe land on which the Tribe can live permanently and govern the Tribe's affairs in a modern community within the ancestral homeland of the Tribe outside and within the Park;

(2) to formally recognize the contributions by the Tribe to the history, culture, and ecology of the Park and surrounding area;

(3) to ensure that the resources within the Park are protected and enhanced by—

(A) cooperative activities within the Tribe's ancestral homeland; and

(B) partnerships between the Tribe and the National Park Service and partnerships involving the Bureau of Land Management;

(4) to ensure that such activities are not in derogation of the purposes and values for which the Park was established;

(5) to provide opportunities for a richer visitor experience at the Park through direct interactions between visitors and the Tribe including guided tours, interpretation, and the establishment of a tribal museum and cultural center;

(6) to provide appropriate opportunities for economically viable and ecologically sustainable visitor-related development, by the Tribe within the Park, that is not in derogation of the purposes and values for which the Park was established; and

(7) to provide trust lands for the Tribe in 4 separate parcels of land that is now managed by the Bureau of Land Management and authorize the purchase of 2 parcels now held in private ownership to be taken into trust for the Tribe.

Santo Domingo
Pueblo Claims
Settlement Act of
2000.
Native
Americans.
New Mexico.
25 USC 1777
note.
25 USC 1777.

To settle the land claims of the Pueblo of Santo Domingo.

*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the “Santo Domingo Pueblo Claims
Settlement Act of 2000”.

SEC. 2. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress makes the following findings:

(1) For many years the Pueblo of Santo Domingo has been asserting claims to lands within its aboriginal use area in north central New Mexico. These claims have been the subject of many lawsuits, and a number of these claims remain unresolved.

(2) In December 1927, the Pueblo Lands Board, acting pursuant to the Pueblo Lands Act of 1924 (43 Stat. 636) confirmed a survey of the boundaries of the Pueblo of Santo Domingo Grant. However, at the same time the Board purported to extinguish Indian title to approximately 27,000 acres of lands within those grant boundaries which lay within 3 other overlapping Spanish land grants. The United States Court of Appeals in *United States v. Thompson* (941 F.2d 1074 (10th Cir. 1991), cert. denied 503 U.S. 984 (1992)), held that the Board “ignored an express congressional directive” in section 14 of the Pueblo Lands Act, which “contemplated that the Pueblo would retain title to and possession of all overlap land”.

(3) The Pueblo of Santo Domingo has asserted a claim to another 25,000 acres of land based on the Pueblo’s purchase in 1748 of the Diego Gallegos Grant. The Pueblo possesses the original deed reflecting the purchase under Spanish law but, after the United States assumed sovereignty over New Mexico, no action was taken to confirm the Pueblo’s title to these lands. Later, many of these lands were treated as public domain, and are held today by Federal agencies, the State Land Commission, other Indian tribes, and private parties. The Pueblo’s lawsuit asserting this claim, *Pueblo of Santo Domingo v. Rael* (Civil No. 83–1888 (D.N.M.)), is still pending.

(4) The Pueblo of Santo Domingo’s claims against the United States in docket No. 355 under the Act of August 13, 1946 (60 Stat. 1049; commonly referred to as the Indian Claims Commission Act) have been pending since 1951. These claims include allegations of the Federal misappropriation and

mismanagement of the Pueblo's aboriginal and Spanish grant lands.

(5) Litigation to resolve the land and trespass claims of the Pueblo of Santo Domingo would take many years, and the outcome of such litigation is unclear. The pendency of these claims has clouded private land titles and has created difficulties in the management of public lands within the claim area.

(6) The United States and the Pueblo of Santo Domingo have negotiated a settlement to resolve all existing land claims, including the claims described in paragraphs (2) through (4).

(b) PURPOSE.—It is the purpose of this Act—

(1) to remove the cloud on titles to land in the State of New Mexico resulting from the claims of the Pueblo of Santo Domingo, and to settle all of the Pueblo's claims against the United States and third parties, and the land, boundary, and trespass claims of the Pueblo in a fair, equitable, and final manner;

(2) to provide for the restoration of certain lands to the Pueblo of Santo Domingo and to confirm the Pueblo's boundaries;

(3) to clarify governmental jurisdiction over the lands within the Pueblo's land claim area; and

(4) to ratify a Settlement Agreement between the United States and the Pueblo which includes—

(A) the Pueblo's agreement to relinquish and compromise its land and trespass claims;

(B) the provision of \$8,000,000 to compensate the Pueblo for the claims it has pursued pursuant to the Act of August 13, 1946 (60 Stat. 1049; commonly referred to as the Indian Claims Commission Act);

(C) the transfer of approximately 4,577 acres of public land to the Pueblo;

(D) the sale of approximately 7,355 acres of national forest lands to the Pueblo; and

(E) the authorization of the appropriation of \$15,000,000 over 3 consecutive years which would be deposited in a Santo Domingo Lands Claims Settlement Fund for expenditure by the Pueblo for land acquisition and other enumerated tribal purposes.

(c) RULE OF CONSTRUCTION.—Nothing in this Act shall be construed to effectuate an extinguishment of, or to otherwise impair, the Pueblo's title to or interest in lands or water rights as described in section 5(a)(2).

(A) to in any way effectuate an extinguishment of or otherwise impair—

(i) the Pueblo's title to lands acquired by or for the benefit of the Pueblo since December 28, 1927, or in a tract of land of approximately 150.14 acres known as the "sliver area" and described on a plat which is appendix H to the Settlement Agreement;

(5) EFFECTIVE DATE.—The provisions of paragraphs (1), (3), and (4) shall take effect upon the entry of a compromise final judgment, in a form and manner acceptable to the Attorney General, in the amount of \$8,000,000 in the case of Pueblo of Santo Domingo v. CLEAN COAL TECHNOLOGY

SEC. 537. (a) FINDINGS.—The Congress finds as follows:

(1) The United States is the world leader in the development of environmental technologies, particularly clean coal technology.

(2) Severe pollution problems affecting people in developing countries, and the serious health problems that result from such pollution, can be effectively addressed through the application of United States technology.

(3) During the next century, developing countries, particularly countries in Asia such as China and India, will dramatically increase their consumption of electricity, and low quality coal will be a major source of fuel for power generation.

(4) Without the use of modern clean coal technology, the resultant pollution will cause enormous health and environmental problems leading to diminished economic growth in developing countries and, thus, diminished United States exports to those growing markets.

(b) STATEMENT OF POLICY.—It is the policy of the United States to promote the export of United States clean coal technology. In furtherance of that policy, the Secretary of State, the Secretary of the Treasury (acting through the United States executive directors to international financial institutions), the Secretary of Energy, and the Administrator of the United States Agency for International Development (USAID) should, as appropriate, vigorously promote

the use of United States clean coal technology in environmental and energy infrastructure programs, projects and activities. Programs, projects and activities for which the use of such technology should be considered include reconstruction assistance for the Balkans, activities carried out by the Global Environment Facility, and activities funded from USAID's Development Credit Authority.

Public Law 106–430
106th Congress

An Act

To require changes in the bloodborne pathogens standard in effect under the Occupational Safety and Health Act of 1970.

Nov. 6, 2000
[H.R. 5178]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Needlestick Safety and Prevention Act”.

Needlestick
Safety and
Prevention Act.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) Numerous workers who are occupationally exposed to bloodborne pathogens have contracted fatal and other serious viruses and diseases, including the human immunodeficiency virus (HIV), hepatitis B, and hepatitis C from exposure to blood and other potentially infectious materials in their workplace.

(2) In 1991 the Occupational Safety and Health Administration issued a standard regulating occupational exposure to bloodborne pathogens, including the human immunodeficiency virus, (HIV), the hepatitis B virus (HBV), and the hepatitis C virus (HCV).

(3) Compliance with the bloodborne pathogens standard has significantly reduced the risk that workers will contract a bloodborne disease in the course of their work.

(4) Nevertheless, occupational exposure to bloodborne pathogens from accidental sharps injuries in health care settings continues to be a serious problem. In March 2000, the Centers for Disease Control and Prevention estimated that more than 380,000 percutaneous injuries from contaminated sharps occur annually among health care workers in United States hospital settings. Estimates for all health care settings are that 600,000 to 800,000 needlestick and other percutaneous injuries occur among health care workers annually. Such injuries can involve needles or other sharps contaminated with bloodborne pathogens, such as HIV, HBV, or HCV.

(5) Since publication of the bloodborne pathogens standard in 1991 there has been a substantial increase in the number and assortment of effective engineering controls available to employers. There is now a large body of research and data concerning the effectiveness of newer engineering controls, including safer medical devices.

(6) 396 interested parties responded to a Request for Information (in this section referred to as the “RFI”) conducted

by the Occupational Safety and Health Administration in 1998 on engineering and work practice controls used to eliminate or minimize the risk of occupational exposure to bloodborne pathogens due to percutaneous injuries from contaminated sharps. Comments were provided by health care facilities, groups representing healthcare workers, researchers, educational institutions, professional and industry associations, and manufacturers of medical devices.

(7) Numerous studies have demonstrated that the use of safer medical devices, such as needleless systems and sharps with engineered sharps injury protections, when they are part of an overall bloodborne pathogens risk-reduction program, can be extremely effective in reducing accidental sharps injuries.

(8) In March 2000, the Centers for Disease Control and Prevention estimated that, depending on the type of device used and the procedure involved, 62 to 88 percent of sharps injuries can potentially be prevented by the use of safer medical devices.

(9) The OSHA 200 Log, as it is currently maintained, does not sufficiently reflect injuries that may involve exposure to bloodborne pathogens in healthcare facilities. More than 98 percent of healthcare facilities responding to the RFI have adopted surveillance systems in addition to the OSHA 200 Log. Information gathered through these surveillance systems is commonly used for hazard identification and evaluation of program and device effectiveness.

(10) Training and education in the use of safer medical devices and safer work practices are significant elements in the prevention of percutaneous exposure incidents. Staff involvement in the device selection and evaluation process is also an important element to achieving a reduction in sharps injuries, particularly as new safer devices are introduced into the work setting.

(11) Modification of the bloodborne pathogens standard is appropriate to set forth in greater detail its requirement that employers identify, evaluate, and make use of effective safer medical devices.

SEC. 3. BLOODBORNE PATHOGENS STANDARD.

The bloodborne pathogens standard published at 29 CFR 1910.1030 shall be revised as follows:

(1) The definition of “Engineering Controls” (at 29 CFR 1910.1030(b)) shall include as additional examples of controls the following: “safer medical devices, such as sharps with engineered sharps injury protections and needleless systems”.

(2) The term “Sharps with Engineered Sharps Injury Protections” shall be added to the definitions (at 29 CFR 1910.1030(b)) and defined as “a nonneedle sharp or a needle device used for withdrawing body fluids, accessing a vein or artery, or administering medications or other fluids, with a built-in safety feature or mechanism that effectively reduces the risk of an exposure incident”.

(3) The term “Needleless Systems” shall be added to the definitions (at 29 CFR 1910.1030(b)) and defined as “a device that does not use needles for: (A) the collection of bodily fluids or withdrawal of body fluids after initial venous or arterial access is established; (B) the administration of medication or

fluids; or (C) any other procedure involving the potential for occupational exposure to bloodborne pathogens due to percutaneous injuries from contaminated sharps”.

(4) In addition to the existing requirements concerning exposure control plans (29 CFR 1910.1030(c)(1)(iv)), the review and update of such plans shall be required to also—

(A) “reflect changes in technology that eliminate or reduce exposure to bloodborne pathogens”; and

(B) “document annually consideration and implementation of appropriate commercially available and effective safer medical devices designed to eliminate or minimize occupational exposure”.

(5) The following additional recordkeeping requirement shall be added to the bloodborne pathogens standard at 29 CFR 1910.1030(h): “The employer shall establish and maintain a sharps injury log for the recording of percutaneous injuries from contaminated sharps. The information in the sharps injury log shall be recorded and maintained in such manner as to protect the confidentiality of the injured employee. The sharps injury log shall contain, at a minimum—

Records.

“(A) the type and brand of device involved in the incident,

“(B) the department or work area where the exposure incident occurred, and

“(C) an explanation of how the incident occurred.”.

The requirement for such sharps injury log shall not apply to any employer who is not required to maintain a log of occupational injuries and illnesses under 29 CFR 1904 and the sharps injury log shall be maintained for the period required by 29 CFR 1904.6.

(6) The following new section shall be added to the bloodborne pathogens standard: “An employer, who is required to establish an Exposure Control Plan shall solicit input from non-managerial employees responsible for direct patient care who are potentially exposed to injuries from contaminated sharps in the identification, evaluation, and selection of effective engineering and work practice controls and shall document the solicitation in the Exposure Control Plan.”.

SEC. 4. EFFECT OF MODIFICATIONS.

The modifications under section 3 shall be in force until superseded in whole or in part by regulations promulgated by the Secretary of Labor under section 6(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655(b)) and shall be enforced in the same manner and to the same extent as any rule or regulation promulgated under section 6(b).

SEC. 5. PROCEDURE AND EFFECTIVE DATE.

(a) PROCEDURE.—The modifications of the bloodborne pathogens standard prescribed by section 3 shall take effect without regard to the procedural requirements applicable to regulations promulgated under section 6(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655(b)) or the procedural requirements of chapter 5 of title 5, United States Code.

(b) EFFECTIVE DATE.—The modifications to the bloodborne pathogens standard required by section 3 shall—

(1) within 6 months of the date of the enactment of this Act, be made and published in the Federal Register by the

Deadline.

publication.

To extend the authority of the Los Angeles Unified School District to use certain park lands in the City of South Gate, California, which were acquired with amounts provided from the land and water conservation fund, for elementary school purposes.

Nov. 6, 2000
[H.R. 5083]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS.

Congress finds the following:

(1) In 1988, the Los Angeles Board of Education voted to close Tweedy Elementary School in the City of South Gate, California, due to concerns about health risks at the site of the school.

(2) The school was temporarily relocated to South Gate Park on park land that was originally acquired with amounts provided by the Secretary of the Interior from the land and water conservation fund.

(3) In March 1991, the lease with the city that allowed the Los Angeles Unified School District to operate the school on park land expired, and no progress had been made in constructing new facilities to relocate the school and its students.

(4) In 1992, Congress enacted Public Law 102–443 (106 Stat. 2244), which authorized an 8-year extension in the lease for the use of the park land pending the construction of the new school.

(5) This 8-year extension is due to expire on October 23, 2000, and little progress has been made on the part of the Los Angeles Unified School District to relocate Tweedy Elementary School.

(6) In addition to the long-delayed Tweedy Elementary School relocation, recent studies have identified the need for additional educational facilities in the City of South Gate, including a new high school, junior high, and three primary centers in the near future.

(7) The lack of commitment, oversight, and accountability in finding a new site for Tweedy Elementary School must be corrected in any further lease extension, and a similar situation also must be avoided in addressing the construction of other education facilities in the City of South Gate.

**SEC. 2. CONTINUATION OF TEMPORARY USE OF PARK LANDS FOR
ELEMENTARY SCHOOL PURPOSES, SOUTH GATE, CALI-
FORNIA.**

Notwithstanding section 6(f)(3) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l-8(f)(3)), the City of South Gate, California, may extend until October 23, 2004, the lease between the City of South Gate and the Los Angeles Unified School District, dated June 8, 1988, and otherwise subject to expire on October 23, 2000, pursuant to Public Law 102-443 (106 Stat. 2244), regarding the use of approximately three acres of South Gate Park as the temporary site for Tweedy Elementary School.

**SEC. 3. REPORT ON PROGRESS TO RELOCATE TWEEDY ELEMENTARY
SCHOOL AND OTHER SCHOOL CONSTRUCTION.**

(a) **PERIODIC REPORTS REQUIRED.**—As a condition on the extension of the lease referred to in section 1 beyond October 23, 2000, the President of the Board of Education for the Los Angeles Unified School District shall require the preparation of periodic reports describing—

(1) the progress being made to relocate Tweedy Elementary School from South Gate Park to a permanent location; and

(2) the School District's construction plans for a new high school, middle school, and three primary centers in the City of South Gate, California.

(b) **ELEMENTS OF REPORT.**—Each report under subsection (a) shall describe—

(1) the progress being made in site selection and acquisition, facility design, and construction; and

(2) any factors hindering either the relocation of Tweedy Elementary School or progress on the School District's other construction plans for the City of South Gate.

(c) **SUBMISSION.**—The reports required by subsection (a) shall be submitted to the City Manager of the City of South Gate, the Congress, the Los Angeles Board of Education, and Padres Unidos Pro Nuevas Escuelas. The first report shall be submitted not later than May 1, 2001, and subsequent reports shall be submitted every 6 months thereafter during the term of the extended lease.

Public Law 106–451
106th Congress

An Act

To provide for the preparation of a Government report detailing injustices suffered by Italian Americans during World War II, and a formal acknowledgment of such injustices by the President.

Nov. 7, 2000
[H.R. 2442]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Wartime Violation of Italian American Civil Liberties Act”.

Wartime
Violation of
Italian American
Civil Liberties
Act.
50 USC app.
1981 note.

SEC. 2. FINDINGS.

The Congress makes the following findings:

(1) The freedom of more than 600,000 Italian-born immigrants in the United States and their families was restricted during World War II by Government measures that branded them “enemy aliens” and included carrying identification cards, travel restrictions, and seizure of personal property.

(2) During World War II more than 10,000 Italian Americans living on the West Coast were forced to leave their homes and prohibited from entering coastal zones. More than 50,000 were subjected to curfews.

(3) During World War II thousands of Italian American immigrants were arrested, and hundreds were interned in military camps.

(4) Hundreds of thousands of Italian Americans performed exemplary service and thousands sacrificed their lives in defense of the United States.

(5) At the time, Italians were the largest foreign-born group in the United States, and today are the fifth largest immigrant group in the United States, numbering approximately 15 million.

(6) The impact of the wartime experience was devastating to Italian American communities in the United States, and its effects are still being felt.

(7) A deliberate policy kept these measures from the public during the war. Even 50 years later much information is still classified, the full story remains unknown to the public, and it has never been acknowledged in any official capacity by the United States Government.

SEC. 3. REPORT.

The Attorney General shall conduct a comprehensive review of the treatment by the United States Government of Italian Americans during World War II, and not later than 1 year after the

Deadline.
50 USC app.
1981 note.

date of the enactment of this Act shall submit to the Congress a report that documents the findings of such review. The report shall cover the period between September 1, 1939, and December 31, 1945, and shall include the following:

(1) The names of all Italian Americans who were taken into custody in the initial roundup following the attack on Pearl Harbor, and prior to the United States declaration of war against Italy.

(2) The names of all Italian Americans who were taken into custody.

(3) The names of all Italian Americans who were interned and the location where they were interned.

(4) The names of all Italian Americans who were ordered to move out of designated areas under the United States Army's "Individual Exclusion Program".

(5) The names of all Italian Americans who were arrested for curfew, contraband, or other violations under the authority of Executive Order No. 9066.

(6) Documentation of Federal Bureau of Investigation raids on the homes of Italian Americans.

(7) A list of ports from which Italian American fishermen were restricted.

(8) The names of Italian American fishermen who were prevented from fishing in prohibited zones and therefore unable to pursue their livelihoods.

(9) The names of Italian Americans whose boats were confiscated.

(10) The names of Italian American railroad workers who were prevented from working in prohibited zones.

Records.

(11) A list of all civil liberties infringements suffered by Italian Americans during World War II, as a result of Executive Order No. 9066, including internment, hearings without benefit of counsel, illegal searches and seizures, travel restrictions, enemy alien registration requirements, employment restrictions, confiscation of property, and forced evacuation from homes.

(12) An explanation of whether Italian Americans were subjected to civil liberties infringements, as a result of Executive Order No. 9066, and if so, why other Italian Americans were not.

(13) A review of the wartime restrictions on Italian Americans to determine how civil liberties can be better protected during national emergencies.

SEC. 4. SENSE OF THE CONGRESS.

It is the sense of the Congress that—

(1) the story of the treatment of Italian Americans during World War II needs to be told in order to acknowledge that these events happened, to remember those whose lives were unjustly disrupted and whose freedoms were violated, to help repair the damage to the Italian American community, and to discourage the occurrence of similar injustices and violations of civil liberties in the future;

(2) Federal agencies, including the Department of Education and the National Endowment for the Humanities, should support projects such as—

(A) conferences, seminars, and lectures to heighten awareness of this unfortunate chapter in our Nation's history;

(B) the refurbishment of and payment of all expenses associated with the traveling exhibit “Una Storia Segreta”, exhibited at major cultural and educational institutions throughout the United States; and

(C) documentaries to allow this issue to be presented to the American public to raise its awareness;

(3) an independent, volunteer advisory committee should be established comprised of representatives of Italian American organizations, historians, and other interested individuals to assist in the compilation, research, and dissemination of information concerning the treatment of Italian Americans;

(4) after completion of the report required by this Act, financial support should be provided for the education of the American public through the production of a documentary film suited for public broadcast; and

(5) the President should, on behalf of the United States Government, formally acknowledge that these events during World War II represented a fundamental injustice against Italian Americans.

Public Law 106–462
106th Congress

An Act

To reduce the fractionated ownership of Indian lands, and for other purposes.

Nov. 7, 2000

[S. 1586]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Indian Land Consolidation Act Amendments of 2000”.

Indian Land
Consolidation Act
Amendments of
2000.
25 USC 2201
note.

TITLE I—INDIAN LAND CONSOLIDATION

SEC. 101. FINDINGS.

25 USC 2201
note.

Congress finds that—

(1) in the 1800’s and early 1900’s, the United States sought to assimilate Indian people into the surrounding non-Indian culture by allotting tribal lands to individual members of Indian tribes;

(2) as a result of the allotment Acts and related Federal policies, over 90,000,000 acres of land have passed from tribal ownership;

(3) many trust allotments were taken out of trust status, often without their owner’s consent;

(4) without restrictions on alienation, allotment owners were subject to exploitation and their allotments were often sold or disposed of without any tangible or enduring benefit to their owners;

(5) the trust periods for trust allotments have been extended indefinitely;

(6) because of the inheritance provisions in the original treaties or allotment Acts, the ownership of many of the trust allotments that have remained in trust status has become fractionated into hundreds or thousands of undivided interests, many of which represent 2 percent or less of the total interests;

(7) Congress has authorized the acquisition of lands in trust for individual Indians, and many of those lands have also become fractionated by subsequent inheritance;

(8) the acquisitions referred to in paragraph (7) continue to be made;

(9) the fractional interests described in this section often provide little or no return to the beneficial owners of those interests and the administrative costs borne by the United States for those interests are inordinately high;

(10) in *Babbitt v. Youpee* (117 S Ct. 727 (1997)), the United States Supreme Court found the application of section 207

of the Indian Land Consolidation Act (25 U.S.C. 2206) to the facts presented in that case to be unconstitutional, forcing the Department of the Interior to address the status of thousands of undivided interests in trust and restricted lands;

(11)(A) on February 19, 1999, the Secretary of the Interior issued a Secretarial Order which officially reopened the probate of all estates where an interest in land was ordered to escheat to an Indian tribe pursuant to section 207 of the Indian Land Consolidation Act (25 U.S.C. 2206); and

(B) the Secretarial Order also directed appropriate officials of the Bureau of Indian Affairs to distribute such interests “to the rightful heirs and beneficiaries without regard to 25 U.S.C. 2206”;

(12) in the absence of comprehensive remedial legislation, the number of the fractional interests will continue to grow exponentially;

(13) the problem of the fractionation of Indian lands described in this section is the result of a policy of the Federal Government, cannot be solved by Indian tribes, and requires a solution under Federal law.

(14) any devise or inheritance of an interest in trust or restricted Indian lands is a matter of Federal law; and

(15) consistent with the Federal policy of tribal self-determination, the Federal Government should encourage the recognized tribal government that exercises jurisdiction over a reservation to establish a tribal probate code for that reservation.

(6) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(b) APPROVAL BY THE SECRETARY.—

(1) IN GENERAL.—The Secretary may approve an oil or gas lease or agreement that affects individually owned Navajo Indian allotted land, if—

An Act

Nov. 7, 2000
[S. 2300]

To amend the Mineral Leasing Act to increase the maximum acreage of Federal leases for coal that may be held by an entity in any 1 State.

Coal Market
Competition Act
of 2000.
30 USC 181 note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Coal Market Competition Act of 2000”.

30 USC 184 note.

SEC. 2. FINDINGS.

Congress finds that—

(1) Federal land contains commercial deposits of coal, the Nation’s largest deposits of coal being located on Federal land in Utah, Colorado, Montana, and the Powder River Basin of Wyoming;

(2) coal is mined on Federal land through Federal coal leases under the Act of February 25, 1920 (commonly known as the “Mineral Leasing Act”) (30 U.S.C. 181 et seq.);

(3) the sub-bituminous coal from these mines is low in sulfur, making it the cleanest burning coal for energy production;

(4) the Mineral Leasing Act sets for each leasable mineral a limitation on the amount of acreage of Federal leases any 1 producer may hold in any 1 State or nationally;

(5)(A) the present acreage limitation for Federal coal leases has been in place since 1976;

(B) currently the coal lease acreage limit of 46,080 acres per State is less than the per-State Federal lease acreage limit for potash (96,000 acres) and oil and gas (246,080 acres);

(6) coal producers in Wyoming and Utah are operating mines on Federal leaseholds that contain total acreage close to the coal lease acreage ceiling;

(7) the same reasons that Congress cited in enacting increases for State lease acreage caps applicable in the case of other minerals—the advent of modern mine technology, changes in industry economics, greater global competition, and the need to conserve Federal resources—apply to coal;

(8) existing coal mines require additional lease acreage to avoid premature closure, but those mines cannot relinquish mined-out areas to lease new acreage because those areas are subject to 10-year reclamation plans, and the reclaimed acreage is counted against the State and national acreage limits;

(9) to enable them to make long-term business decisions affecting the type and amount of additional infrastructure

investments, coal producers need certainty that sufficient acreage of leasable coal will be available for mining in the future; and

(10) to maintain the vitality of the domestic coal industry and ensure the continued flow of valuable revenues to the Federal and State governments and of energy to the American public from coal production on Federal land, the Mineral Leasing Act should be amended to increase the acreage limitation for Federal coal leases.

SEC. 3. COAL MINING ON FEDERAL LAND.

Section 27(a) of the Act of February 25, 1920 (30 U.S.C. 184(a)), is amended—

(1) by striking “(a)” and all that follows through “No person” and inserting “(a) COAL LEASES.—No person”;

(2) by striking “forty-six thousand and eighty acres” and inserting “75,000 acres”; and

(3) by striking “one hundred thousand acres” each place it appears and inserting “150,000 acres”.

To provide for business development and trade promotion for Native Americans,
and for other purposes.

Native American
Business
Development,
Trade Promotion,
and Tourism Act
of 2000.
25 USC 4301
note.
25 USC 4301.

*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the “Native American Business
Development, Trade Promotion, and Tourism Act of 2000”.

SEC. 2. FINDINGS; PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) clause 3 of section 8 of article I of the United States
Constitution recognizes the special relationship between the
United States and Indian tribes;

(2) beginning in 1970, with the inauguration by the Nixon
Administration of the Indian self-determination era, each Presi-
dent has reaffirmed the special government-to-government rela-
tionship between Indian tribes and the United States;

(3) in 1994, President Clinton issued an Executive memo-
randum to the heads of departments and agencies that obli-
gated all Federal departments and agencies, particularly those
that have an impact on economic development, to evaluate
the potential impacts of their actions on Indian tribes;

(4) consistent with the principles of inherent tribal sov-
ereignty and the special relationship between Indian tribes
and the United States, Indian tribes retain the right to enter
into contracts and agreements to trade freely, and seek enforce-
ment of treaty and trade rights;

(5) Congress has carried out the responsibility of the United
States for the protection and preservation of Indian tribes and
the resources of Indian tribes through the endorsement of trea-
ties, and the enactment of other laws, including laws that
provide for the exercise of administrative authorities;

(6) the United States has an obligation to guard and pre-
serve the sovereignty of Indian tribes in order to foster strong
tribal governments, Indian self-determination, and economic
self-sufficiency among Indian tribes;

(7) the capacity of Indian tribes to build strong tribal
governments and vigorous economies is hindered by the
inability of Indian tribes to engage communities that surround
Indian lands and outside investors in economic activities on
Indian lands;

(8) despite the availability of abundant natural resources
on Indian lands and a rich cultural legacy that accords great

value to self-determination, self-reliance, and independence, Native Americans suffer higher rates of unemployment, poverty, poor health, substandard housing, and associated social ills than those of any other group in the United States;

(9) the United States has an obligation to assist Indian tribes with the creation of appropriate economic and political conditions with respect to Indian lands to—

(A) encourage investment from outside sources that do not originate with the tribes; and

(B) facilitate economic ventures with outside entities that are not tribal entities;

(10) the economic success and material well-being of Native American communities depends on the combined efforts of the Federal Government, tribal governments, the private sector, and individuals;

(11) the lack of employment and entrepreneurial opportunities in the communities referred to in paragraph (7) has resulted in a multigenerational dependence on Federal assistance that is—

(A) insufficient to address the magnitude of needs; and

(B) unreliable in availability; and

(12) the twin goals of economic self-sufficiency and political self-determination for Native Americans can best be served by making available to address the challenges faced by those groups—

(A) the resources of the private market;

(B) adequate capital; and

(C) technical expertise.

(b) PURPOSES.—The purposes of this Act are as follows:

(1) To revitalize economically and physically distressed Native American economies by—

(A) encouraging the formation of new businesses by eligible entities, and the expansion of existing businesses; and

(B) facilitating the movement of goods to and from Indian lands and the provision of services by Indians.

(2) To promote private investment in the economies of Indian tribes and to encourage the sustainable development of resources of Indian tribes and Indian-owned businesses.

(3) To promote the long-range sustained growth of the economies of Indian tribes.

(4) To raise incomes of Indians in order to reduce the number of Indians at poverty levels and provide the means for achieving a higher standard of living on Indian reservations.

(5) To encourage intertribal, regional, and international trade and business development in order to assist in increasing productivity and the standard of living of members of Indian tribes and improving the economic self-sufficiency of the governing bodies of Indian tribes.

(6) To promote economic self-sufficiency and political self-determination for Indian tribes and members of Indian tribes.

This title may be cited as the “National Oilheat Research Alliance Act of 2000”.

42 USC 6201
note.

SEC. 702. FINDINGS.

Congress finds that—

(1) oilheat is an important commodity relied on by approximately 30,000,000 Americans as an efficient and economical energy source for commercial and residential space and hot water heating;

(2) oilheat equipment operates at efficiencies among the highest of any space heating energy source, reducing fuel costs and making oilheat an economical means of space heating;

(4) only very limited Federal resources have been made available for oilheat research, development, safety, training, and education efforts, to the detriment of both the oilheat industry and its 30,000,000 consumers; and

(5) the cooperative development, self-financing, and implementation of a coordinated national oilheat industry program of research and development, training, and consumer education is necessary and important for the welfare of the oilheat industry, the general economy of the United States, and the millions of Americans that rely on oilheat for commercial and residential space and hot water heating.

The Secretary shall request the State dam safety officer (or equivalent State official) to be involved in the application process if State permits or approvals are required. The approval process shall be in writing, and made known to all local organizations and appropriate State agencies.

“(g) PROHIBITION ON CERTAIN REHABILITATION ASSISTANCE.—The Secretary may not approve a rehabilitation request if the need for rehabilitation of the structure is the result of a lack of adequate maintenance by the party responsible for the maintenance.

**CHAPTER 2—SPECIAL CLASSIFICATION RELATING TO
PRODUCT DEVELOPMENT AND TESTING**

Product
Development and
Testing Act of
2000.

SEC. 1431. SHORT TITLE.

This chapter may be cited as the “Product Development and Testing Act of 2000”.

SEC. 1432. FINDINGS; PURPOSE.

(a) **FINDINGS.**—The Congress finds the following:

(1)(A) A substantial amount of development and testing occurs in the United States incident to the introduction and manufacture of new products for both domestic consumption and export overseas.

(B) Testing also occurs with respect to merchandise that has already been introduced into commerce to insure that it continues to meet specifications and performs as designed.

(2) The development and testing that occurs in the United States incident to the introduction and manufacture of new products, and with respect to products which have already been introduced into commerce, represents a significant industrial activity employing highly-skilled workers in the United States.

(3)(A) Under the current laws affecting the importation of merchandise, such as the provisions of part I of title IV of the Tariff Act of 1930 (19 U.S.C. 1401 et seq.), goods commonly referred to as “prototypes”, used for product development testing and product evaluation purposes, are subject to customs duty upon their importation into the United States unless the prototypes qualify for duty-free treatment under special trade programs or unless the prototypes are entered under a temporary importation bond.

(B) In addition, the United States Customs Service has determined that the value of prototypes is to be included in the value of production articles if the prototypes are the result of the same design and development effort as the articles.

(4)(A) Assessing duty on prototypes twice, once when the prototypes are imported and a second time thereafter as part of the cost of imported production merchandise, discourages development and testing in the United States, and thus encourages development and testing to occur overseas, since, in that case, duty will only be assessed once, upon the importation of production merchandise.

(B) Assessing duty on these prototypes twice unnecessarily inflates the cost to businesses, thus reducing their competitiveness.

(5) Current methods for avoiding the excessive assessment of customs duties on the importation of prototypes, including the use of temporary importation entries and obtaining drawback, are unwieldy, ineffective, and difficult for both importers and the United States Customs Service to administer.

(b) **PURPOSE.**—The purpose of this chapter is to promote product development and testing in the United States by permitting the importation of prototypes on a duty-free basis.

SEC. 1433. AMENDMENTS TO HARMONIZED TARIFF SCHEDULE OF THE UNITED STATES.

(a) **HEADING.**—Subchapter XVII of Chapter 98 is amended by inserting in numerical sequence the following new heading:

“	9817.85.01	Prototypes to be used exclusively for development, testing, product evaluation, or quality control purposes	Free	The rate applicable in the absence of this heading”.
---	------------	---	------	--

(b) **U.S. NOTE.**—The U.S. Notes to subchapter XVII of chapter 98 are amended by adding at the end the following:

“6. The following provisions apply to heading 9817.85.01:

“(a) For purposes of this subchapter, including heading 9817.85.01, the term ‘prototypes’ means originals or models of articles that—

“(i) are either in the preproduction, production, or postproduction stage and are to be used exclusively for development, testing, product evaluation, or quality control purposes; and

“(ii) in the case of originals or models of articles that are either in the production or postproduction stage, are associated with a design change from current production (including a refinement, advancement, improvement, development, or quality control in either the product itself or the means for producing the product).

For purposes of clause (i), automobile racing for purse, prize, or commercial competition shall not be considered to be “development, testing, product evaluation, or quality control.”

“(b)(i) Prototypes may be imported only in limited noncommercial quantities in accordance with industry practice.

“(ii) Except as provided for by the Secretary of the Treasury, prototypes or parts of prototypes may not be sold after importation into the United States or be incorporated into other products that are sold.

“(c) Articles subject to quantitative restrictions, antidumping orders, or countervailing duty orders may not be classified as prototypes under this note. Articles subject to licensing requirements, or which must comply with laws, rules, or regulations administered by agencies other than the United States Customs Service before being imported, may be classified as prototypes if they comply with all applicable provisions of law and otherwise meet the definition of ‘prototypes’ under paragraph (a).”

SEC. 1434. REGULATIONS RELATING TO ENTRY PROCEDURES AND SALES OF PROTOTYPES.

(a) **IDENTIFICATION OF PROTOTYPES.**—The Secretary of the Treasury shall promulgate regulations regarding the identification of prototypes at the time of importation into the United States in accordance with the provisions of this chapter and the amendments made by this chapter.

Deadline.

(b) **SALES OF PROTOTYPES.**—Not later than 10 months after the date of the enactment of this Act, the Secretary of the Treasury shall promulgate final regulations regarding the sale of prototypes entered under heading 9817.85.01 of the Harmonized Tariff Schedule of the United States as scrap, or waste, or for recycling, if all duties are tendered for sales of the prototypes, including prototypes and parts of prototypes incorporated into other products, as scrap, waste, or recycled materials, at the rate of duty in effect

for such scrap, waste, or recycled materials at the time of importation of the prototypes.

SEC. 1435. EFFECTIVE DATE.

This chapter, and the amendments made by this chapter, shall apply with respect to—

(1) an entry of a prototype under heading 9817.85.01, as added by section 1433(a), on or after the date of the enactment of this Act; and

(2) an entry of a prototype (as defined in U.S. Note 6(a) to subchapter XVII of chapter 98, as added by section 1433(b)) under heading 9813.00.30 for which liquidation has not become final as of the date of the enactment of this Act.

**CHAPTER 3—PROHIBITION ON IMPORTATION OF
PRODUCTS MADE WITH DOG OR CAT FUR**

SEC. 1441. SHORT TITLE.

This chapter may be cited as the “Dog and Cat Protection Act of 2000”.

SEC. 1442. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress makes the following findings:

(1) An estimated 2,000,000 dogs and cats are slaughtered and sold annually as part of the international fur trade. Internationally, dog and cat fur is used in a wide variety of products, including fur coats and jackets, fur trimmed garments, hats, gloves, decorative accessories, stuffed animals, and other toys.

(2) The United States represents one of the largest markets for the sale of fur and fur products in the world. Market demand for fur products in the United States has led to the introduction of dog and cat fur products into United States commerce, frequently based on deceptive or fraudulent labeling of the products to disguise the true nature of the fur and mislead United States wholesalers, retailers, and consumers.

(3) Dog and cat fur, when dyed, is not easily distinguishable to persons who are not experts from other furs such as fox, rabbit, coyote, wolf, and mink, and synthetic materials made to resemble real fur. Dog and cat fur is generally less expensive than other types of fur and may be used as a substitute for more expensive types of furs, which provides an incentive to engage in unfair or fraudulent trade practices in the importation, exportation, distribution, or sale of fur products, including deceptive labeling and other practices designed to disguise the true contents or origin of the product.

(4) Forensic texts have documented that dog and cat fur products are being imported into the United States subject to deceptive labels or other practices designed to conceal the use of dog or cat fur in the production of wearing apparel, toys, and other products.

(5) Publicly available evidence reflects ongoing significant use of dogs and cats bred expressly for their fur by foreign fur producers for manufacture into wearing apparel, toys, and other products that have been introduced into United States commerce. The evidence indicates that foreign fur producers also rely on the use of stray dogs and cats and stolen pets for the manufacture of fur products destined for the world and United States markets.

Dog and Cat
Protection Act of
2000.

19 USC 1654
note.

19 USC 1308
note.

(6) The methods of housing, transporting, and slaughtering dogs and cats for fur production are generally unregulated and inhumane.

(7) The trade of dog and cat fur products is ethically and aesthetically abhorrent to United States citizens. Consumers in the United States have a right to know if products offered for sale contain dog or cat fur and to ensure that they are not unwitting participants in this gruesome trade.

(8) Persons who engage in the sale of dog or cat fur products, including the fraudulent trade practices identified above, gain an unfair competitive advantage over persons who engage in legitimate trade in apparel, toys, and other products, and derive an unfair benefit from consumers who buy their products.

(9) The imposition of a ban on the sale, manufacture, offer for sale, transportation, and distribution of dog and cat fur products, regardless of their source, is consistent with the international obligations of the United States because it applies equally to domestic and foreign producers and avoids any discrimination among foreign sources of competing products. Such a ban is also consistent with provisions of international agreements to which the United States is a party that expressly allow for measures designed to protect the health and welfare of animals and to enjoin the use of deceptive trade practices in international or domestic commerce.

(b) PURPOSES.—The purposes of this chapter are to—

(1) prohibit imports, exports, sale, manufacture, offer for sale, transportation, and distribution in the United States of dog and cat fur products, in order to ensure that United States market demand does not provide an incentive to slaughter dogs or cats for their fur;

(2) require accurate labeling of fur species so that consumers in the United States can make informed choices and ensure that they are not unwitting contributors to this gruesome trade; and

(3) ensure that the customs laws of the United States are not undermined by illicit international traffic in dog and cat fur products.

SEC. 1443. PROHIBITION ON IMPORTATION OF PRODUCTS MADE WITH DOG OR CAT FUR.

(a) IN GENERAL.—Title III of the Tariff Act of 1930 is amended by inserting after section 307 the following new section:

“(3) CUSTOMS LAWS.—The term ‘customs laws of the United States’ means any other law or regulation enforced or administered by the United States Customs Service.

“(4) DESIGNATED AUTHORITY.—The term ‘designated authority’ means the Secretary of the Treasury, with respect to the prohibitions under subsection (b)(1)(A), and the President

(or the President's designee), with respect to the prohibitions under subsection (b)(1)(B).

“(c) PENALTIES AND ENFORCEMENT.—

“(1) CIVIL PENALTIES.—

“(A) IN GENERAL.—Any person who violates any provision of this section or any regulation issued under this section may, in addition to any other civil or criminal penalty that may be imposed under title 18, United States Code, or any other provision of law, be assessed a civil penalty by the designated authority of not more than—

“(i) \$10,000 for each separate knowing and intentional violation;

“(ii) \$5,000 for each separate grossly negligent violation; or

“(iii) \$3,000 for each separate negligent violation.

“(B) DEBARMENT.—The designated authority may prohibit a person from importing, exporting, transporting, distributing, manufacturing, or selling any fur product in the United States, if the designated authority finds that the person has engaged in a pattern or practice of actions that has resulted in a final administrative determination with respect to the assessment of civil penalties for knowing and intentional or grossly negligent violations of any provision of this section or any regulation issued under this section.

“(C) FACTORS IN ASSESSING PENALTIES.—In determining the amount of civil penalties under this paragraph, the designated authority shall take into account the degree of culpability, any history of prior violations under this section, ability to pay, the seriousness of the violation, and such other matters as fairness may require.

“(D) NOTICE.—No penalty may be assessed under this paragraph against a person unless the person is given notice and opportunity for a hearing with respect to such violation in accordance with section 554 of title 5, United States Code.

The regulations of the Secretary of the Treasury shall provide for a process by which testing laboratories, whether domestic or foreign, can qualify for certification by the United States Customs Service by demonstrating the reliability of the procedures used for determining the type of fur contained in articles intended for sale or consumption in interstate commerce. Use of a laboratory certified by the United States Customs Service to determine the nature of fur contained in an item to which subsection (b) applies is not required to avoid liability under this section but may, in a case in which a person can establish that the goods imported were tested by such a laboratory and that the item was not found to be a dog or cat fur product, prove dispositive in determining whether that person exercised reasonable care for purposes of paragraph (6).

“(5) REWARD.—The designated authority shall pay a reward of not less than \$500 to any person who furnishes information that establishes or leads to a civil penalty assessment, debarment, or forfeiture of property for any violation of this section or any regulation issued under this section.

Joint Resolution

Recognizing that the Birmingham Pledge has made a significant contribution in fostering racial harmony and reconciliation in the United States and around the world, and for other purposes.

Nov. 9, 2000
[H.J. Res. 102]

Whereas Birmingham, Alabama, was the scene of racial strife in the United States in the 1950s and 1960s;

Whereas since the 1960s, the people of Birmingham have made substantial progress toward racial equality, which has improved the quality of life for all its citizens and led to economic prosperity;

Whereas out of the crucible of Birmingham's role in the civil rights movement of the 1950s and 1960s, a present-day grassroots movement has arisen to continue the effort to eliminate racial and ethnic divisions in the United States and around the world;

Whereas that grassroots movement has found expression in the Birmingham Pledge, which was authored by Birmingham attorney James E. Rotch, is sponsored by the Community Affairs Committee of Operation New Birmingham, and is promoted by a broad cross section of the community of Birmingham;

Whereas the Birmingham Pledge reads as follows:

“I believe that every person has worth as an individual.

“I believe that every person is entitled to dignity and respect, regardless of race or color.

“I believe that every thought and every act of racial prejudice is harmful; if it is in my thought or act, then it is harmful to me as well as to others.

“Therefore, from this day forward I will strive daily to eliminate racial prejudice from my thoughts and actions.

“I will discourage racial prejudice by others at every opportunity.

“I will treat all people with dignity and respect; and I will strive to honor this pledge, knowing that the world will be a better place because of my effort.”;

Whereas commitment and adherence to the Birmingham Pledge increases racial harmony by helping individuals communicate in a positive way concerning the diversity of the people of the United States and by encouraging people to make a commitment to racial harmony;

Whereas individuals who sign the Birmingham Pledge give evidence of their commitment to its message;

Whereas more than 70,000 people have signed the Birmingham Pledge, including the President, Members of Congress, Governors,

State legislators, mayors, county commissioners, city council members, and other persons around the world;

Whereas the Birmingham Pledge has achieved national and international recognition;

Whereas efforts to obtain signatories to the Birmingham Pledge are being organized and conducted in communities around the world;

Whereas every Birmingham Pledge signed and returned to Birmingham is recorded at the Birmingham Civil Rights Institute, Birmingham, Alabama, as a permanent testament to racial reconciliation, peace, and harmony; and

Whereas the Birmingham Pledge, the motto for which is “Sign It, Live It”, is a powerful tool for facilitating dialogue on the Nation’s diversity and the need for people to take personal steps to achieve racial harmony and tolerance in communities: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That—

(1) Congress recognizes that the Birmingham Pledge is a significant contribution toward fostering racial harmony and reconciliation in the United States and around the world;

(2) Congress commends the creators, promoters, and signatories of the Birmingham Pledge for the steps they are taking to make the United States and the world a better place for all people; and

(3) it is the sense of the Congress that a particular week should be designated as “National Birmingham Pledge Week”.
